Experience

Trendyol

Mar. 2022 – Present

Full Stack Engineer

Istanbul, Turkey

- Developed a tool that **64%** of sellers are starting to use for designing stores more conveniently by using, **React.js** and **Nest.js**
- Created a Seller Profile tab for **over 100K** sellers on Trendyol by using **React.js** and **Nest.js**
- Programmed a **Kafka consumer** to gather **over 52M** data from multiple Kafka topics
- Built an app for **over 100K** sellers to design their stores, by using **React Native**
- Migrated **110K** WebP images of **30K** sellers to JPEG by using **Typescript**, **PostgreSQL** and **Couchbase**
- Presenting the features developed by my team at the monthly meetings

Getir

Sep. 2021 – Mar. 2022

Software Engineer Intern

Istanbul, Turkey

- Worked on development and improvement of back end systems for GetirFood using **Node.js**
- Wrote unit and integration tests for **60%** of the GetirFood's Post Order API endpoints with **Jest**
- Solved bugs to prevent endpoints from being called unnecessary or incorrectly

Jun. 2021 – Sep. 2021

Data Scientist Intern

Istanbul, Turkey

- Built an algorithm to place the products in the warehouse optimally to reduce the time for couriers to get product
- Developed **AWS Cloudwatch** logs insights query to detect error existence on logs
- Developed a parallel web and mobile crawler to store contents of more than **30K** products using **Selenium** and Python
